

# Polar regions

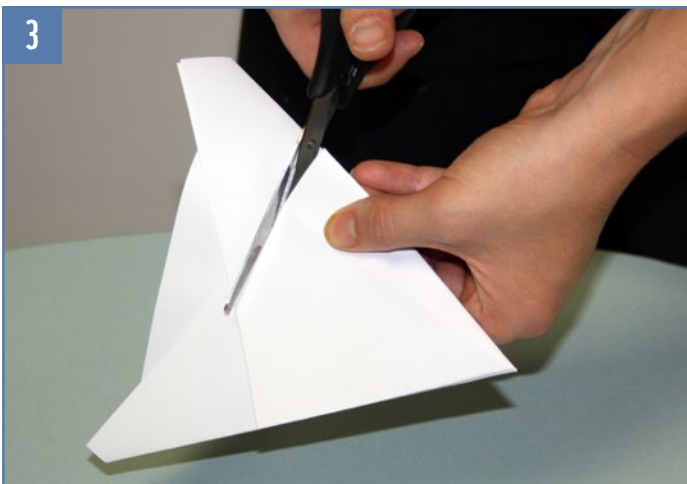

## Make a snowflake

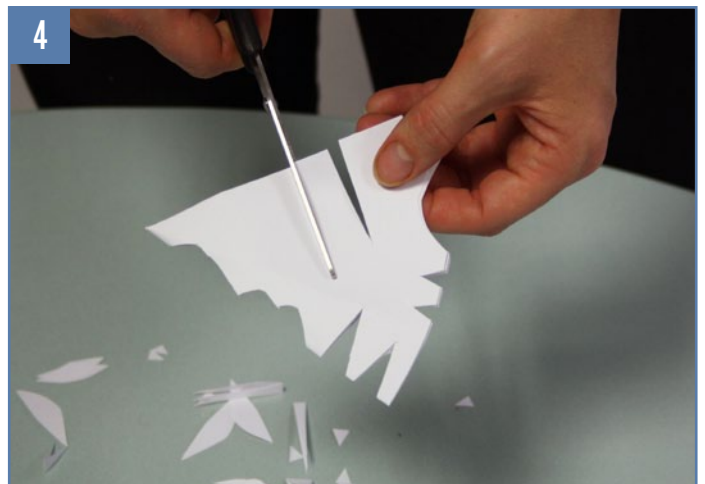

1 Fold the piece of paper in half widthways.

2 Fold over one side, then the other, to make two 60 degree folds (roughly). The folded piece of paper should be wedge-shaped.

3 Cut off the edges of the folded paper in an arc-shape.

4 Cut a lot of the paper away on all three sides. Vary the size and shape of your cuts as much as you can.

5 Unfold your snowflake carefully.

If you like, you can decorate your snowflake with glue and glitter, or glitter glue.

6 Display your snowflake somewhere that it can be seen, like in a window.
