

Activity sheet - Asia

The tiger and the poo

In the last 150 years the area that tigers live in has shrunk by nearly 95%. Most of this is because of human activities. Tigers are being forced into smaller and smaller areas, which affects their chances of survival and makes it more likely that they will come into contact with humans like Trishna. It is important that we try to find ways of keeping tiger habitat safe, and of making sure that tigers and humans have their own separate space.

- 1 Can you colour in this picture of a tiger? Have a look at some of the pictures of tigers around the Go Wild site so that you can see what colours to use.

- 2 Why does Anil's wife Trishna have to go into the forest?

- 3 What animal is Trishna in danger of coming into contact with in the forest?

Activity sheet - Asia

The tiger and the poo

4 What does the special cooker that WWF helped put into Anil and Trishna's home, use instead of wood for fuel?

5 Have a look on the WWF website wwf.org.uk and see if you can find three human activities that are affecting tiger habitats:

A. _____

B. _____

C. _____

6 As well as their habitat being made smaller, there are other big threats to tigers from humans. Can you match the right word to the right gap in the text below, so that you can learn more about tigers?

Asian medicine, poaching, skins, whiskers

The biggest threat to tigers is _____. Tiger bones and other body parts are used in traditional _____. Different tiger parts, including claws, teeth and _____, are believed to give good luck. There is also a demand for tiger _____ for use in clothing, as decoration.

Story board - Asia

The Tiger and the poo

Draw a picture for each part of the story.

1

Anil and his family keep three cows.

2

Every day his wife Trishna has to go into the forest to collect wood to use for cooking.

3

This is dangerous because there are tigers in the forest.

4

WWF help Anil put a special cooker into his home that uses cow poo as fuel, instead of wood.

5

The special cookers use poo to make bio gas which powers the cooker.

6

Now Anil and Trishna don't have to worry about going into the forest and disturbing the tigers.
